

## TOP DRESS

LASTING PLASTIC RESTORING POLISH

### Product description

Plastic restoring polish for plastic car parts. Through its innovative formula made up with top waxes and state-of-the art polymers, this specific polish cleans, shines and restores plastic parts such as dashboards, front and rear bumpers, etc., leaving a semi-glossy and antistatic protective film. It leaves a fresh and pleasant scent.

**HOW TO USE:** please spray a small quantity of product on a sponge or cloth and spread it with circular movements. If a higher gloss level is desired, please repeat the application twice, increasing the quantity. Eventually, remove it with a clean cloth.
