

## LASTING BRILL

CAR POLISHING CLEANER

## **Product description**

Concentrated cleaner for car body polishing. Through a perfect balance between cleaning and glossing agents, it washes and shines cars in one single action. It quickly and easily removes dirt and exhaust gas deposit, insects, dropping, dust and contaminants. Lasting Brill generates a minimum quantity of foam and thanks to the total absence of solvents, phosphates and colorants, it is absolutely biocompatible and leaves an antistatic waterproof film, which prevent filth deposition.

**HOW TO USE**: this self-drying product can be diluted from 2 to 4% with water. Please apply with a sponge, insisting where dirt is tougher, and wash away with clean water.

LASTING BRILL contains: 5-15% Anionic surfactants; less then 5% Non-ionic surfactants
